About the Host Company: Visit their website: <https://africaesg.com/>

Position Overview:

The Intern will play a critical support role within the energy consultancy and project development team at AESG. This role is ideal for highly motivated recent graduates or early-career professionals who are passionate about renewable energy and environmental sustainability. The intern will gain valuable hands-on experience by contributing to ongoing projects and assisting in various aspects of energy consultancy, including research, data analysis, technical design, and client interaction. This is a structured internship aimed at developing your skills while making a tangible contribution to the projects you are involved in.

Key responsibilities:

- Research and Technical Support.
- Market and Policy Analysis.
- Documentation and Reporting.
- Project Coordination and Management.
- Client and Stakeholder Engagement.

Skills & Qualifications:

- Master's Degree in Electrical Power Systems, Renewable Energy, Energy Economics, Environmental Engineering, or a closely related field.
- Bachelor's Degree in Renewable Energy Technology, Engineering, or similar disciplines.
- Equivalent qualifications in other renewable energy studies will also be considered.

- Candidates with up to 1-2 years of post-graduation experience in energy consultancy, renewable energy, climate change, or related fields will be preferred.
- Previous internships or academic projects focused on renewable energy or environmental sustainability will be advantageous.
- Solid understanding of renewable energy technologies, energy markets, and policy frameworks across Africa.
- Strong analytical and problem-solving skills, with the ability to interpret and apply data to real-world energy challenges.
- Excellent verbal and written communication skills, with an ability to produce clear, concise, and professional reports and presentations.
- Strong interpersonal skills and the ability to collaborate effectively within multi-disciplinary teams and with external stakeholders.
- Demonstrated organizational skills, with experience managing multiple tasks simultaneously while maintaining attention to detail.
- Ability to work under minimal supervision while meeting deadlines in a fast-paced environment.
- Eagerness to learn new skills and take on challenges in a dynamic consultancy environment.
- Ability to quickly adapt to changing project requirements and priorities.

Benefits:

- Professional Development
- Career Progression
- Industry Exposure
- Gain practical experience in energy economics and market analysis.
- Work on impactful projects focused on sustainability and renewable energy.
- Collaborate with an experienced team and contribute to strategic business growth.
- Opportunity to develop financial and analytical skills with real-world applications.
- Potential for long-term career opportunities within the company upon successful completion of the internship. (e.g: Job, etc)
